

## График отворени обучения, водени от инструктор Shedule of public Instructor-led trainings

### A+

Location Date Instructor

#### CompTIA A+ Certification: Essentials (2009 Objectives), 5 day

In this course, students will acquire the essential skills and information you will need to install, upgrade, repair, configure, troubleshoot, optimize, and perform preventative maintenance of basic personal computer hardware and operating systems. The course will prepare students for CompTIA A+ (2009 objectives) certification.

Sofia 05.04 - 09.04 Stefan, Georgiev

### Business skills

Location Date Instructor

#### BPM Business Process Management, 2 day

This course is designed for executives, department managers, heads of programs and projects directors, quality managers, consultants, management consultants, business process owners and all others in a organization that is interested in ways to increase efficiency and improve performance.

Sofia 15.04 - 16.04 Ivaylo, Velichkov

#### Effective Presentations, 2 day

In this course, students will learn how to develop and deliver effective and persuasive presentations.

Sofia 27.05 - 28.05 Boriana, Petrova

#### Practical Sales Skills Training, 2 day

This course provides an overview of the basics of selling with an emphasis on the different stages of the sales cycle.

Sofia 13.03 - 14.03 Svetlin, Iordanov

Sofia 08.04 - 09.04 Svetlin, Iordanov

#### Sales: Managing & Leading Sales Teams, 2 day

Upon successful completion of this course, students will be able to: - prepare to negotiate in a business environment. - initiate negotiations and follow through on their results. - negotiate with your partner. - follow through on a completed business negotiation. - negotiate in unique business circumstances.

Sofia 25.03 - 26.03 Ian, Smith

### Cisco IRONPORT

Location Date Instructor

#### IronPort: Securing Your Email with Cisco IronPort C-Series, Part I, 2 days, 2 day

This course provides a thorough foundation on how to successfully install, configure, and administrate IronPort email security appliances. Attendees will also learn about Internet email concepts and standards, and will receive an overview of other product features that can be used for more customized configurations.

Sofia 07.04 - 08.04 Deniz, Kaya

Sofia 14.04 - 15.04 Deniz, Kaya

Sofia 23.06 - 24.06 Deniz, Kaya

Sofia 15.09 - 16.09 Deniz, Kaya

Sofia 20.10 - 21.10 Deniz, Kaya

#### IronPort: Securing Your Email with Cisco IronPort C-Series, Part II, Advanced, 1 day, 1 day

This one-day training course provides advanced information for successful configuration and operation of an IronPort email security appliance. By exploring in depth specific product features, mail administrators will receive in-depth training to meet specific needs.

Sofia 09.04 - 09.04 Deniz, Kaya

Sofia 16.04 - 16.04 Deniz, Kaya

Sofia 25.06 - 25.06 Deniz, Kaya

Sofia 17.09 - 17.09 Deniz, Kaya

Sofia 22.10 - 22.10 Deniz, Kaya

## Ironport: Securing Your Web With Cisco IronPort S-Series, 2 day

This comprehensive, two-day training course covers how to install, configure, operate and maintain the Cisco Ironport S-Series Web security appliance. The course consists of hands-on labs, demos and presentations to help students learn technical aspects of the S-Series Web Security Appliances.

Sofia	05.04 - 06.04	Deniz, Kaya
Sofia	12.04 - 13.04	Deniz, Kaya
Sofia	21.06 - 22.06	Deniz, Kaya
Sofia	13.09 - 14.09	Deniz, Kaya
Sofia	18.10 - 19.10	Deniz, Kaya

## Design & Media

Location	Date	Instructor
----------	------	------------

### Photoshop CS4, level 1, 5 day

In this course, students use various tools and features of Photoshop CS4. They explore the interface, customize it, and use tools for selecting parts of images. They learn to use layers and to apply layer effects and filters for creating special effects.

Sofia	29.03 - 02.04	Boriana, Petrova
-------	---------------	------------------

## IBM

Location	Date	Instructor
----------	------	------------

### GPFS System Administration, 3 day

Sofia	23.03 - 25.03	
-------	---------------	--

### TM501: IBM Tivoli Storage Manager v5.5 Implementation and Administration, 4 day

Sofia	29.03 - 02.04	
-------	---------------	--

Sofia	29.03 - 02.04	
-------	---------------	--

### TM502BG IBM Tivoli Storage Manager 5.5 Implementation and Administration, 5 day

This course is the first of two 5-day instructor-led courses for implementing and administering IBM Tivoli Storage Manager (TSM). In hands-on practice, you work with a data management strategy to perform the following tasks: - Install the TSM 5.5 server, TSM backup-archive client, and the Integrated Solution Console Administration Center. - Create and configure hierarchies of storage pools. - Define policies to manage the flow of data from disk to disk or tape media. - Back up and restore client data. - Archive and retrieve long-term and offsite data. - Automatically back up and restore the TSM databases and storage pools from off-site data storage pools.

Sofia	19.04 - 23.04	
-------	---------------	--

## ITIL

Location	Date	Instructor
----------	------	------------

### ITIL v3 Foundation, 3 day

This course, based on the ITIL best practice service lifecycle approach, provides a practical understanding of the key concepts, principles, processes and functions that enables successful IT Service Management (ITSM) provision.

Sofia	19.04 - 21.04	Marcus, Inglez
-------	---------------	----------------

Sofia	28.06 - 30.06	Marcus, Inglez
-------	---------------	----------------

### ITIL v3 Service Strategy, 4 day

This 3 day program leads to a Certificate in ITIL V3 Service Lifecycle Management - Service Strategy. This program is for IT professionals working within, or about to enter, an IT environment requiring a detailed understanding of the processes, functions and activities associated with the Service Strategy domain of the ITIL® Service Lifecycle. Upon successful completion of the education and examination, students can expect to gain competencies in the IT Service Strategy areas.

Sofia	22.04 - 23.04	Marcus, Inglez
-------	---------------	----------------

Sofia	01.07 - 02.07	Marcus, Inglez
-------	---------------	----------------

## Network+

Location	Date	Instructor
----------	------	------------

### CompTIA Network+ (2009 Objectives), 5 day

In this course students will identify and describe all the major networking technologies, systems, and skill in use in modern PC-based computer networks, and learn information to prepare for the CompTIA Network+ (2009 Objectives) cert exam (N10-004).

Sofia	01.03 - 05.03	
-------	---------------	--

## Oracle

Location	Date	Instructor
----------	------	------------

### Oracle Database 10g: Administration I, 5 days, 5 day

In this course, students will perform key administrative tasks in Oracle Database 10g, such as creating and controlling databases, administering users, implementing security features, monitoring performance, and performing backup and recovery.

Sofia	26.04 - 30.04	lassen, Houbenov
-------	---------------	------------------

### Oracle Database 10g: Administration II, 5 days, 5 day

In this course, students will develop an advanced understanding of complex Oracle database concepts, maintenance and recovery routines, and database management. Students will learn how to control and manage an Oracle installation

Sofia	12.04 - 16.04	lassen, Houbenov
-------	---------------	------------------

## Oracle Database 10g: Introduction to SQL programming - complete, 5 day

In this class, students will learn how to create, retrieve, and manipulate objects in Oracle 10g Structured Query Language (SQL). Students will also be introduced to Oracle 10g database features and tools. The Oracle 10g release has greatly enhanced the features and functionality of PL/SQL. Students will learn the fundamentals of the PL/SQL programming language. Students will write stored procedures, functions, packages, and triggers, and implement complex business rules in Oracle. Students will learn programming, management, and security issues of working with PL/SQL program units. Programming topics will include the built-in packages that come with Oracle, the creation of triggers, and stored procedure features.

Sofia	10.05 - 14.05	Stefan, Georgiev
-------	---------------	------------------

## OTHER

Location	Date	Instructor
----------	------	------------

### PERL/CGI Introduction (Second Edition), 2 day

In this course students learn to write programs to interact with web servers by retrieving or uploading data. This course will introduce students to programming in Perl and then to using Perl in web development.

Sofia	27.02 - 06.03	Petar, Penchev
-------	---------------	----------------

## Project Management

Location	Date	Instructor
----------	------	------------

### Project 2007 - Level 1, 1 day

In this course, students create a project plan containing tasks, organize these tasks in a work breakdown structure containing task relationships, create and assign resources, and finalize the project to implement the project plan.

Sofia	19.03 - 19.03	Boriana, Petrova
-------	---------------	------------------

### Project 2007 - Level 2, 1 day

In this course, students exchange project plan data with other applications, update project plans, create visual reports, and reuse project plan information.

Sofia	26.03 - 26.03	Boriana, Petrova
-------	---------------	------------------

### Project Management Professional (PMP) Certification, 40 hours, 35 PDUs, 5 day

In this course, students will apply the generally recognized practices of project management acknowledged by the Project Management Institute (PMI®) to successfully manage projects.

Sofia	29.03 - 02.04	Hristo, Zehirev
-------	---------------	-----------------

## Security

Location	Date	Instructor
----------	------	------------

### CISSP: Certified Information Systems Security Professional, 5 day

This course addresses the essential elements of the 10 domains that comprise a Common Body of Knowledge. It offers a job-related approach to the security process, and provides basic skills required to prepare for CISSP certification.

Sofia	01.03 - 05.03	
-------	---------------	--

### CPTe Certified Penetration Testing Expert™, 5 day

The course provides attendees with the unique opportunity to perform all stages of an actual penetration test within a controlled classroom environment. Hands-on laboratories have been researched and developed by leading security professionals from around the world and are continuously updated.

Sofia	15.03 - 19.03	Deniz, Kaya
-------	---------------	-------------

Sofia	17.05 - 21.05	Fong, Fook
-------	---------------	------------

### Pen Testing Consultation, 5 day

Sofia	22.02 - 26.02	Fong, Fook
-------	---------------	------------

## Seminars

Location	Date	Instructor
----------	------	------------

### Seminar-"Forensic Analysis: Damage Control, Data Retrieval and Incident Management", 1 day

Sofia	17.03 - 17.03	Miguel, Azevedo
-------	---------------	-----------------

### Seminar-"Hacking Cisco networks and countermeasures", 1 day

Sofia	24.03 - 24.03	Deniz, Kaya
-------	---------------	-------------

### Seminar-"Implementation of corporate information security system", 1 day

Sofia	10.03 - 10.03	Boris, Goncharov
-------	---------------	------------------

### Seminar-"Sniffing SSL traffics", 1 day

Sofia	24.02 - 24.02	Fong, Fook
-------	---------------	------------

## UNIX - LINUX

Location	Date	Instructor
----------	------	------------

### CompTIA Linux+ Certification (2009 Objectives)-Custom, 2 day

Sofia	01.03 - 02.03	
-------	---------------	--

## Linux Professional Institute Certification (LPIC) 102, 5 day

In this course, students with basic knowledge of computer hardware and system administration will focus on Linux system administration and prepare to take the LPI 102 exam. Students will install, configure, and manage Linux systems

Sofia	01.03 - 05.03	Yovko, Yovkov
-------	---------------	---------------

## Cisco CCNP

Location	Date	Instructor
----------	------	------------

### BSCI Building Scalable Cisco® Internetworks, 5 day

BSCI instructs network administrators of medium-to-large network sites on the use of advanced IP addressing and routing in implementing scalability for Cisco routers connected to LANs and WANs. The goal is to train network administrators to grow a dramatically increased number of routers/sites using these techniques instead of redesigning the network when additional sites or wiring configurations are added.

Sofia	22.03 - 26.03	
-------	---------------	--

### ISCW Implementing Secure Converged Wide Area Networks, 5 day

In this course, student will learn to secure and expand the reach of their enterprise network to teleworkers and remote sites. Focus is on securing remote access and VPN client configuration.

Sofia	21.06 - 25.06	
-------	---------------	--

### ONT Optimizing Converged Cisco Networks, 5 day

In this course, students receive training for skills in optimizing and providing effective QOS techniques in converged networks operating voice, wireless and security applications.

Sofia	31.05 - 04.06	Deniz, Kaya
-------	---------------	-------------

## Cisco CCSP

Location	Date	Instructor
----------	------	------------

### Cisco Securing Networks with ASA Advanced (SNAA), 5 day

This course teaches the knowledge and skills needed to configure, maintain, and operate Cisco ASA 5500 Series Adaptive Security Appliances at an advanced level.

Sofia	24.05 - 28.05	Deniz, Kaya
-------	---------------	-------------

### Implementing Cisco Intrusion Prevention System (IPS) v6.0, 4 day

In this course, students learn how Cisco IPS protects network devices from attacks, they will install the IPS sensor appliance in the network and initialize it. They will use IDM to configure basic sensor settings and to configure built-in signatures

Sofia	29.03 - 02.04	Deniz, Kaya
-------	---------------	-------------

## Cisco CCVP

Location	Date	Instructor
----------	------	------------

### CIPT2 Implementing Cisco Unified Communications Manager Part 2 v6.0, 5 day

This course is designed to provide learners with the necessary knowledge and skills to enable video calls and to secure, monitor, and manage a Cisco Unified Communications solution based on Cisco Unified CallManager, the call-routing and signaling component of the Cisco Unified Communications solution.

Sofia	15.03 - 19.03	Stoitsev, Stoyan
-------	---------------	------------------

### CVOICE Cisco® Voice over IP, 5 day

Cisco Voice over IP (CVOICE) provides an understanding of converged voice and data networks and also the challenges faced by the various network technologies. The course also provides network administrators and network engineers with the knowledge and skills required to integrate gateways and gatekeepers into an enterprise VoIP network.

Sofia	22.03 - 26.03	Deniz, Kaya
-------	---------------	-------------

## Messaging

Location	Date	Instructor
----------	------	------------

### 5050 Recovering Messaging Servers and Databases Using Microsoft Exchange Server 2007, 1 day

This course teaches messaging specialists to recover Exchange mailboxes and servers in a variety of disaster scenarios. Students will learn how to perform full and dial-tone recoveries of a mailbox server, as well as repair a mailbox database. They will also learn how to perform a full recovery of Client Access servers, Hub Transport servers, Unified Messaging servers, and Edge Transport servers.

Sofia	31.05 - 31.05	
-------	---------------	--

### 5051 Monitoring and Troubleshooting Microsoft Exchange Server 2007, 2 day

This workshop teaches messaging specialists to monitor and troubleshoot an Exchange Server 2007 messaging system. Students will learn how to correlate client and server issues and resolve those issues. They will also learn how to monitor systems and create reports from the monitoring data.

Sofia	14.06 - 15.06	
-------	---------------	--

### Microsoft Exchange Server 2010 (beta) Ignite, 3 day

Sofia	22.03 - 24.03	Lyubomir, Stefanov
-------	---------------	--------------------

## Software development, .NET 1.x

Location Date Instructor

### 2349B Programming with the Microsoft.NET Framework (Visual C Sharp.NET), 5 day

The goal of this course is to help application developers understand the Microsoft® .NET Framework. The course provides a series of labs, which introduce and explain .NET Framework features that are used to code, debug, tune, and deploy applications.

Sofia 29.03 - 02.04

## SQL Server

Location Date Instructor

### 2778 Writing Queries Using Microsoft SQL Server 2008 Transact-SQL, 3 day

This 3-day instructor led course provides students with the technical skills required to write basic Transact-SQL queries for Microsoft SQL Server 2008.

Sofia 08.03 - 10.03 Stefan, Georgiev

### 6232 Implementing a Microsoft SQL Server 2008 Database, 5 day

This five-day instructor-led course provides students with the knowledge and skills to implement a Microsoft SQL Server 2008 database. The course focuses on teaching individuals how to use SQL Server 2008 product features and tools related to implementing a database.

Sofia 03.05 - 07.05 Vladimir, Dimitrov

## Windows 7

Location Date Instructor

### 6292 Installing and Configuring Windows 7 (Client Beta), 3 day

This three-day instructor-led course is intended for IT professionals who are interested in expanding their knowledge base and technical skills about Windows 7 Client. In this course, students learn how to install, upgrade, and migrate to Windows 7 client

Sofia 29.03 - 02.04 Darin, Yonchev

## Windows Server® 2008

Location Date Instructor

### 6423 Implementing and Managing Windows Server 2008 Clustering, 3 day

This three-day instructor-led course introduces Windows Server 2008 clustering and provides students with the knowledge and skills to implement, maintain, and troubleshoot clusters.

Sofia 31.05 - 04.06

### 6425 Configuring and Troubleshooting Windows Server 2008 Active Directory Domain Services, 5 day

(Preliminary Outline) This course provides the knowledge and skills to configure Active Directory Domain Services in a distributed environment, implement Group Policies, perform backup and restore, monitor and troubleshoot Active Directory related issues.

Sofia 15.03 - 19.03 Darin, Yonchev

### 6430 Managing and Maintaining Windows Server 2008 Servers, 5 day

This course is intended for Windows Server 2008 Technology Specialists, in Network Infrastructure and Active Directory, who are interested in learning professional level Server Administrator skills to plan, manage, and maintain Windows Server 2008 servers.

Sofia 15.03 - 19.03 Darin, Yonchev

## Windows Servers and Infrastructure

Location Date Instructor

### 6410 First Look: Getting Started with Server Virtualization in Windows Server® 2008 (Beta 3), 1 day

Sofia 01.03 - 01.03 Darin, Yonchev

## Databases

Location Date Instructor

### Access 2003 - Level 3, 1 day

In this course, students will learn remote database management, how to exchange data with XML and other type applications, and how to automate your business processes by using VBA code.

Sofia 25.02 - 26.02 Stefan, Georgiev

### Access 2007 - Level 1, 2 day

In the course, students create and modify new databases and their various objects. They learn how to maintain data consistency and integrity; improve queries, forms, and reports; and also integrate Access™ 2007 with other applications.

Sofia 18.03 - 19.03 Stefan, Georgiev

### Access 2007 - Level 2, 2 day

In this course, students will create complex Access databases by structuring existing data, writing advanced queries, working with macros, making effective use of forms and reports, and also by performing database maintenance. (Second Edition)

Sofia 29.03 - 30.03 Stefan, Georgiev

## Presentations

Location Date Instructor

### PowerPoint 2003 - Level 2, 1 day

In this course, students will enhance presentations with features that will transform basic presentations into those with a powerful means of communication.

Sofia	18.02 - 19.02	Boriana, Petrova
Sofia	29.03 - 30.03	Liliya, Nikolova

## Spreadsheets

Location Date Instructor

### Excel 2003 - Level 2, 2 days, 2 day

In this course, you will use Microsoft Office Excel 2003 to streamline and enhance your spreadsheets with templates, charts, graphics, and formulas.

Sofia	15.03 - 16.03	
-------	---------------	--

### Excel 2003 - Level 3, 2 days, 2 day

In this course, students will learn how to automate common tasks, apply advanced analysis techniques to more complex data sets, collaborate on worksheets with others, and share Excel data with other applications.

Sofia	18.03 - 19.03	Liliya, Nikolova
Sofia	05.04 - 06.04	Liliya, Nikolova

### Excel 2007 - Level 2, 2 days, 2 day

In this course, students use Excel® 2007 to streamline and enhance spreadsheets with templates, charts, graphics, and formulas. They will apply visual elements and advanced formulas to a worksheet to display data in various formats. (Second Edition)

Sofia	22.02 - 23.02	Boriana, Petrova
Sofia	24.02 - 25.02	Liliya, Nikolova
Sofia	04.03 - 05.03	Boriana, Petrova

### Excel 2007 - Level 3, 2 days, 2 day

In this course, students will learn how to automate common tasks, apply advanced analysis techniques to more complex data sets, collaborate on worksheets with others, and share Excel data with other applications. (Second Edition)

Sofia	08.03 - 09.03	Boriana, Petrova
-------	---------------	------------------

### Microsoft Office Excel 2007 - VBA, 2 day

This course is designed for proficient Excel users who wish to learn how to automate standard features and to develop programs in VBA.

Sofia	01.03 - 02.03	Stefan, Georgiev
-------	---------------	------------------
